GEN. SHERMAN will have nothing to trouble him hereafter but his annual salary of \$17,500 per year.

RANDALL stands first in the fight trees. for the speakership in congress and Carlisle second. Randall probably any one of the candidates for the

GEN. PRYOR and Judge Fullerton of New York, and two other noted attorneys of Chicago were sent to England to assist in the O'Donnell case, but were ruled out, and only tion of country to raise cottonwood English lawyers are permitted to be trees upon. It will be needed for actively employed in the case.

WB hope for the honor of the Territory that the sensational story told by the Star of lawlessness and a combination to put Judge Sheldon and other officers of the law out of the way, in Graham county, is an exaggeration. If the matter is not a cock and bull story it is about time that the law abiding citizens of Graham county take possession of their county government and use is to the end that Graham county shall no longer be the "dark and bloody of the Territory. If it is for the people of that rol themselves, then it don has suggested, Graham be abolished.

Wm are in receipt of a sheet containing a large number of endorsements by various papers of the country of one Chas. P. Button, who is a candidate for sergeant-at-arms of the next lower house of congress. Mr. Button has probably been a local celebrity, as we don't remember of ever having heard of him before. However, we judge he wants a national reputation as once having been a candidate for sergeant-atarms of the lower house of congress. At least we knew of ne other use for his circular of recommendations. the Territory. Earnest, honest min-The people of this backwoods country are yet under the impression that congress choose their sergeant-atlittle to do or say in the matter. sewed onto the coat tail of congress

necessity for railroad communication with the oatside world. The necessity is making itself felt so seriously and constantly that from force of circumstances a break will be made in some direction by somebody before a very great while. The Southern Pacific people have repeatedly said that they will put on the rolling stock if we will go shead and build the road. It seems to us that there are enough men with large business interests and owning teams enough to grade the road from Phoenix to Maricopa, under such proposition as Mr. F. M. Fowler, has already made viz., to grade five miles of the road at his own expense if parties will put the road into operation.

The plan for the grading to be done in this way is perfectly feasible and we believe that force enough can be put on the road from this county to do the principal part of the grading inside of a month from the time it is commenced. When once the matter is seriously started

The Arizona Canal Company ought to be largely interested in this matter and we hope that it is sufficiently interested to take hold of the mat- by the forces of El Mahdi, the false ter with its customary energy and prophet. Intelligence of the disasanterprise, and build the road, or at last grade it when we doubt not the grade could be disposed of to parties | 3d to the 5th instant, and to have requestion is in order. Our citizens can put in work and feed better than they can put in money, and they can never make a more paying O'Neill, who on the 23d of Septeminvestment of either one of them ber last threw a burning coal oil than in opening out our valley to

the general markets of the county. We reiterate that it is a fessible and those who have not but have rest, who found for manslaughter. muscle and money to unite them for a time in grading a road to Maricopa. They will never be used to a greater advantage or put into any business that will bring quicker and great returns.

A railroad into this valley would double our population within the next eighteen months, and thereby double the volume of our business, If this valley wishes to have "lively times" let it begin the construction

manifested in the valley in treeplanting there should be some a'tention given to ornamental and shade there.

The cottonwood is a swift grower and gives the much needed shade has the greatest moneyed backing of sconer perhaps than any other tree, but its general meanness coupled with the fact that nothing else can grow that at an early day will compel its entire destruction, except, perhaps, where grown for wood. Land will ere long be too valuable in this secfruit and grain.

ment there is perhaps no tree open switch. grown in the valley that so nearly fills the bill as the Pepper Tree, so

It is a next, trim and rapid grower when properly trained and when tion that the grand jury of the city "headed in" makes a dense shade and is evergreen. It is almost absolutely free from bugs, worms, cotton, etc., which make the cottenwood so disagreeable, and is more sociable inclined, occupying no more land than other trees of its size.

It can readily be trained high for shade or low for ornament and

The ash is another beautiful tree

For upward of eighteen months the mining business in Arizona has lain completely dormant and not a sound has disturbed the profoundness of its quiet save the click of the lonely prospector's pick here and there among silent mountains. The stamp has stood idle, the fires were out in the smelters. To-day all this has changed and

renewed energy is visible all over

ing has taken the place of mining rever in all states of the republic few that lived were taken prisoners. speculation and mining peculation, the members of the two branches of Men no longer buy any hole in the ground that a man with a pick on arms for themselves, and that the his shoulder says is the "biggest the application. people and press at large have very thing in the world." A reasonable amount of development must show However, if we can do Mr. Button itself.
